

MICHAEL MOUNT WALDORF SCHOOL COOKIE POLICY

The Cookie Policy outlines how Michael Mount Waldorf School (“we”, “us”, or “our”) uses cookies and similar technologies to recognise you when you visit our website. www.michaelmount.co.za.

It explains what these technologies are and why we use them, as well as your rights to control the use of them.

What are cookies?

Cookies are small data files, which are used for access to the internet, that are stored on your computer, mobile device, tablet, or any other device of any given user.

Cookies are installed through a request by the server of a given web page to your web browser and are completely "passive" (they do not contain any software, viruses or spyware and do not have access to the information of the User hardware).

Thanks to their flexibility and the fact that most websites use cookies, their use is almost inevitable.

What are cookies used for?

Cookies are used in various ways. They allow the website to function more efficiently. Cookies are required for you to browse the website and to use its services and functionalities.

Essential website cookies: These cookies are strictly necessary to provide you with services available through our website. Without these essential cookies, our website will not function as well as we would like it to, and it may hinder certain services or features.

Performance and functionality cookies: These cookies are used to enhance the performance and functionality of our website but are non-essential to their use. Without these, certain functionalities may become unavailable.

Analytics and customisation cookies: These cookies collect information that is used in aggregate form, to help us understand how our website is being used, how effective our marketing campaigns are, and to help us customise the website for users.

Security and confidentiality

Cookies are not viruses. They take the form of simple text. They are not made out of code and cannot therefore be executed or execute themselves alone. Consequently, they may not be duplicated or copied into other networks in order to get started and copied once more. Since cookies cannot perform those functions, they cannot be regarded as viruses.

Most often, browsers have built-in privacy settings, which provide different levels for the acceptance of cookies, the period of their validity and their automatic deletion after a user has visited a given website.

How can I control cookies?

You have the right to decide whether to accept or reject cookies. You can set or amend your web browser controls or refuse cookies. If you choose to reject cookies, you may still use our website though your access to some functionalities and areas of our website may be restricted.

How often will we update the Cookie Policy?

We may update this Cookie Policy from time to time in order to reflect, for example, changes to the cookies we use or for other operational, legal or regulatory reasons. Please therefore re-visit this Cookie Policy to stay informed about our use of cookies and related technologies.

Where can I get further information:

If you have any questions about our use of cookies or any other technologies, please email us at waldorf@michaelmount.co.za.
